Semaphore Announces Distribution Agreement With Gray Matter Systems

NASHUA, NEW HAMPSHIRE – March 18, 2008 – [Semaphore](#), a CSE Global company, welcomes Gray Matter Systems as a distribution partner for Semaphore’s [T-BOX RTU](#) and [Kingfisher RTU](#) product lines.

Based in the Pittsburgh, Pennsylvania area, Gray Matter Systems serves the manufacturing and utilities industries. Gray Matter has extensive experience with best-in-class products from a broad variety of suppliers to provide effective solutions for their end customers.

Gray Matter Systems is Semaphore’s authorized distributor for markets in Kentucky, Michigan, Ohio, Pennsylvania and West Virginia as well as Florida.

Semaphore’s T-BOX RTU is the first, IP-based telemetry system that enables the complete integration of SCADA, control, and communications functionality in one rugged package. It leverages easy-to-use Web technologies and inexpensive public networks for decentralized, monitoring and control systems.

The Kingfisher RTU line provides many advanced features for SCADA system solutions, including redundant configurations, intelligent I/O, and open programming that is compliant with IEC 61131-3 and IEC 61499. Kingfisher systems are well suited to large, demanding measurement and control applications that employ central stations.

Semaphore's T-BOX and Kingfisher RTU products are ideal for a broad range of monitoring and control applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water / wastewater industries. For more information about Semaphore solutions, visit www.cse-semaphore.com, or contact Semaphore at 15B Charron Avenue, Nashua, NH 03063, 603-577-3803.

About Gray Matter Systems

[Gray Matter Systems](#) is a Sales, Support, Engineering and Educational Services Company that provides expandable, enduring solutions, which are cost effective today and for years to come. This company is a group of talented professionals specializing in solution oriented systems, software and computer systems. Gray Matter's solutions automate manufacturing and utility operations and deliver real-time plant production data to other systems.

Gray Matter bridges the gap between real time data manufacturing systems and transactional business information systems. Their systems enable customers to provide accurate data in the appropriate context at the right time on the correct person's PC display in order to take action. Gray Matter solutions are based on commercially available, off-the-shelf software and hardware, which are augmented with partners and services based on the individual requirement.

About Semaphore

Established in 2006, Semaphore was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an installed base of more than 70,000 devices. For more information, visit www.cse-semaphore.com.

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit www.cse-global.com.
