Semaphore SCADA system products will be on exhibit at AWWA ACE08

NASHUA, NEW HAMPSHIRE – May 20, 2008 – Semaphore, a CSE Global company, announces that its [SCADA System](#) products will be on exhibit at ACE08. This event, which is the [American Water Works Annual Conference & Exposition](#), will be held at the Georgia World Congress Center in Atlanta, Georgia, June 8 – 12. Semaphore’s exhibit, at booth 3051, will feature the [T-BOX RTU](#) and [Kingfisher RTU](#) product lines.

The T-BOX RTU is the first, IP-based telemetry solution that enables the complete integration of SCADA, control, and communications functionality in one rugged package. It leverages easy-to-use Web technologies and inexpensive public networks for decentralized, monitoring and control systems. T-BOX products offer up to 50% less total installed cost per point versus traditional SCADA/ PLC systems and permit greater organizational access to data through automated reporting and browser software.

The Kingfisher RTU line provides many advanced features for SCADA system solutions, including redundant configurations, intelligent I/O, and open programming that is compliant with IEC 61131-3. Kingfisher is also the first RTU product line that is compliant with IEC 61499, the distributed processing and interoperability extension to IEC 61131-3. Kingfisher systems are well suited to large, demanding measurement and control applications that employ central stations.

Semaphore’s T-BOX and Kingfisher RTU products are ideal for a broad range of monitoring and control applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water / wastewater industries. For more information about Semaphore

solutions, visit www.cse-semaphore.com, or contact Semaphore at 15B Charron Avenue, Nashua, NH 03063, 603-577-3803.

At the ACE08 exhibition, attendees will find the latest products and services available to help ensure safe water. With more than 500 exhibitors on hand to answer questions about the latest technology available, attendees will gather valuable information and contacts with companies whose goal is to help water industry operations improve their results. For more information, visit www.awwa.org/ACE08.

About Semaphore

Established in 2006, [Semaphore](http://www.semaphore.com) was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an installed base of more than 70,000 devices. For more information, visit www.cse-semaphore.com.

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit www.cse-global.com.
