## **Semaphore Announces SCADA Distribution Agreement with Proceam**

NASHUA, NEW HAMPSHIRE – July 1, 2008 – Semaphore, a CSE Global company, welcomes Proceam as a distribution partner for Semaphore’s [T-BOX SCADA system](#) products as well as [Semaphore](#) connectivity products. Proceam is Semaphore’s authorized distributor for customers in Spain.

Based in Madrid, Proceam provides a broad range of industrial, wireless products and systems for process and manufacturing operations. In addition to Semaphore’ SCADA and IP telemetry products, Proceam is a provider of controllers, [SCADA systems](#), FOUNDATION Fieldbus, wireless Ethernet connectivity and wireless telemetry.

Proceam’s expertise in telemetry technology is a key to sales and support of Semaphore’s SCADA and IP telemetry products.

Semaphore’s T-BOX is the first, IP-based telemetry solution that enables the complete integration of SCADA, control, and communications functionality in one rugged package. It leverages easy-to-use Web technologies and inexpensive public networks for decentralized, monitoring and control systems.

Semaphore’s T-BOX products are ideal for a broad range of monitoring and control applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water/wastewater industries. For more information about Semaphore solutions, visit [www.cse-semaphore.com](http://www.cse-semaphore.com), or contact Semaphore at 15B Charron Avenue, Nashua, NH 03063, 603-577-3803.

## **About Proceam**

Proceam provides a broad range of industrial wireless products and systems for process and manufacturing applications. Proceam is a specialist in telemetry technology – transmitting data and information using a variety of methodologies. Special expertise in all aspects of batch production has made Proceam a leading solution supplier to industries such as utilities and energy, telecom, and water treatment.

Proceam’s strict adherence to proven methodologies combined with expertise in a wide range of automation and communication technologies ensures the highest return on our customer's investment. Continuous learning keeps Proceam engineers proficient in new technologies and industry developments, bringing the benefits of innovation and advanced capabilities to our customers.

For more information, visit [www.proceam.com](http://www.proceam.com).

## **About Semaphore**

Established in 2006, Semaphore was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an installed base of more than 70,000 devices. For more information, visit [www.cse-semaphore.com](http://www.cse-semaphore.com).

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit [www.cse-global.com](http://www.cse-global.com).
