Semaphore Announces SCADA Distribution Agreement with Centris Technologies

NASHUA, NEW HAMPSHIRE – September 18, 2008 – [Semaphore](#), a CSE Global company, welcomes Centris Technologies as a distribution partner for Semaphore’s [Kingfisher SCADA](#) system product line. Centris Technologies is a Semaphore authorized distributor for customers in eastern Canada including Ontario, Quebec, Newfoundland, Labrador, New Brunswick, Nova Scotia and Prince Edward Island.

Centris Technologies is a privately held company with offices in Canada and partner offices in the United States and Europe. Centris Technologies is the Canadian Master Distributor for ICS Triplex ISaGRAF, the North American representative for ARC Informatique, a QNX partner and an ICP DAS Solution provider. Centris aims its products and services at integrators, governments, OEMs and large end-users.

Semaphore’s Kingfisher RTU line provides many advanced features for [SCADA system](#) solutions, including redundant configurations, intelligent I/O, and open programming that is compliant with IEC 61131-3 and IEC 61499. Kingfisher systems are well suited to large, demanding measurement and control applications.

Semaphore’s RTU products are ideal for a broad range of monitoring and control applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water / wastewater industries. For more information about Semaphore solutions, visit www.cse-semaphore.com, or contact Semaphore at 15B Charron Avenue, Nashua, NH 03063, 603-577-3803.

About Centris Technologies

Centris Technologies is committed to providing cutting edge automation products and unparalleled services to the industrial automation and process control marketplace. Centris Technologies has the experience, knowledge and skills to turn any control or data acquisition challenge into a resounding success.

About Semaphore

Established in 2006, Semaphore was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an installed base of more than 70,000 devices. For more information, visit www.cse-semaphore.com.

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit www.cse-global.com.
