Semaphore SCADA system products will be on exhibit at WEFTEC.08

NASHUA, NEW HAMPSHIRE – September 26, 2008 – [Semaphore](#), a CSE Global company, announces that its [SCADA System](#) products will be on exhibit at WEFTEC.08. This event, the 81st Annual Water Environment Federation Technical Exhibition and Conference, will be held at McCormick Place, Chicago, Illinois, October 19 - 22. Semaphore's exhibit, at booth 16099, will feature the [T-BOX RTU](#) and [Kingfisher RTU](#) product lines.

The T-BOX RTU is the first, IP-based telemetry solution that enables the complete integration of [SCADA](#), control, and communications functionality in one rugged package. It leverages easy-to-use Web technologies and inexpensive public networks for decentralized, monitoring and control systems. T-BOX products offer up to 50% less total installed cost per point versus traditional SCADA/ PLC systems and permit greater organizational access to data through automated reporting and browser software.

The Kingfisher RTU line provides many advanced features for SCADA system solutions, including redundant configurations, intelligent I/O, and open programming that is compliant with IEC 61131-3. Kingfisher is also the first RTU product line that is compliant with IEC 61499, the distributed processing and interoperability extension to IEC 61131-3. Kingfisher systems are well suited to large, demanding measurement and control applications that employ central stations.

Semaphore's T-BOX and Kingfisher RTU products are ideal for a broad range of monitoring and control applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water / wastewater industries. For more information about Semaphore

solutions, visit www.cse-semaphore.com, or contact Semaphore at 15B Charron Avenue, Nashua, NH 03063, 603-577-3803.

WEFTEC's unparalleled educational and training opportunities attract thousands of water and wastewater professionals each year. Coinciding with the technical conference is WEFTEC's expansive exhibition – the largest in North America – which draws buyers and representatives of leading water and wastewater companies from around the world. In all, 20,000 attendees and exhibitors come to WEFTEC to learn, share ideas, and conduct business. For more information, visit www.weftec.org/Exhibition.

About Semaphore

Established in 2006, [Semaphore](http://www.semaphore.com) was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an installed base of more than 70,000 devices. For more information, visit www.cse-semaphore.com.

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit www.cse-global.com.
