## **Semaphore Announces SCADA Distribution Agreement with Advent Electric**

LAKE MARY, FLORIDA – February 8, 2010 – Semaphore, a CSE Global company, welcomes Advent Electric as a distribution partner for the [T-BOX](#) and Kingfisher [SCADA system](#) product lines. Based in Bridgeport, PA, Advent provides a broad range of products for industrial automation, monitoring, and networking to customers in the U.S. mid-Atlantic region.

Semaphore's T-BOX is the first IP-based telemetry solution that enables the complete integration of [SCADA](#), control, and communications functionality in one rugged package. It leverages easy-to-use Web technologies and inexpensive public networks for decentralized, monitoring and control systems.

The [Kingfisher](#) RTU line provides many advanced features for SCADA system solutions, including redundant configurations, intelligent I/O, and open programming that is compliant with IEC 61131-3 and IEC 61499. Kingfisher systems are well suited to large, demanding measurement and control applications that employ central stations.

[Advent Electric](#) provides a diverse customer base with high-tech solutions and quality products. Advent stocks products from industry leading manufacturers, including PLCs, HMI, MCC, and software for control and monitoring applications. Advent further provides applications support for all of these products. Strategic branch locations allow customers to count on next day delivery in many cases.

Advent also stocks and supplies a variety of analog, digital and mechanical sensors, as well as a broad selection of motors, drives, controls and panel enclosures. Other products include state-of-

the-art fixed and portable, non-contact temperature measuring devices. For more information, visit [www.advent-elect.com](http://www.advent-elect.com).

### **About Semaphore**

Established in 2006, [Semaphore](http://www.semaphore.com) was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an installed base of more than 70,000 devices. Semaphore's T-BOX and Kingfisher [RTU](#) products are ideal for a broad range of applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water / wastewater industries. For more information, visit [www.cse-semaphore.com](http://www.cse-semaphore.com) or contact Semaphore Inc. at 1200 Chantry Place, Lake Mary, FL 32746, (407) 333-3235.

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit [www.cse-global.com](http://www.cse-global.com).
