Semaphore RTU products will be on exhibit at Entelec 2010

LAKE MARY, FLORIDA – April 7, 2010 – [Semaphore](#), a CSE Global company, announces that its [RTU](#) and [SCADA System](#) products will be on exhibit at [Entelec 2010](#). This event will be held at the George R. Brown Convention Center in Houston, Texas on April 13 – 15, 2010. Semaphore’s exhibit, at booth 124, will feature the new Wireless Monitor as well as the [T-BOX](#) and [Kingfisher](#) product lines.

The intelligent, ultra-low power, Wireless Monitor comprises a fully integrated solution for management of remote assets and processes. T-BOX WM extends advanced monitoring, automation, and telemetry capabilities to installations requiring only one or two measurements.

T-BOX is the first, remote site solution that enables the complete integration of automation, Internet, IT and IP telemetry functionality in a single, rugged package. It leverages easy-to-use Web technologies and inexpensive public networks for decentralized, monitoring and control systems. T-BOX products offer up to 50% less total installed cost per point versus traditional SCADA/ PLC systems and permit greater organizational access to data through automated reporting and browser software.

The Kingfisher RTU line provides many advanced features for SCADA system solutions, including redundant configurations, intelligent I/O, and open programming that is compliant with IEC 61131-3. Kingfisher is also the first RTU product line to be compliant with IEC 61499, the distributed processing and interoperability extension to IEC 61131-3. Kingfisher systems are well suited to large, demanding measurement and control applications that employ central stations.

Semaphore's T-BOX and Kingfisher RTU products are ideal for a broad range of monitoring and control applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water / wastewater industries. For more information about Semaphore solutions, visit www.cse-semaphore.com, or contact Semaphore at 1200 Chantry Place, Lake Mary, FL 32746, 407-333-3235.

About Semaphore

Established in 2006, [Semaphore](http://www.cse-semaphore.com) was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an installed base of more than 70,000 devices. For more information, visit www.cse-semaphore.com.

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit www.cse-global.com.
