Semaphore Introduces New SCADA Training Video

LAKE MARY, FLORIDA – May 12, 2010 – [Semaphore](#), a CSE Global company, has introduced a new installment in the [SCADA training](#) video series devoted to innovative SCADA RTU solutions. The video series, featuring Semaphore Technical Support Manager Jean Burton as Dr. T-BOX, provides tips and insights on making the most of SCADA applications.

The latest video highlights the five, core capabilities of the T-BOX architecture: Alarm management, data logging, PLC programming, IP connectivity and communications interfacing.

The video series is available on Semaphore's Web site, www.cse-semaphore.com, which details their offering of complete integration of T-BOX and Kingfisher [SCADA system](#), control, and communications products. The free videos emphasize the latest product releases and, ultimately, cover all aspects of Semaphore's [T-BOX](#) and Kingfisher SCADA system product lines. Burton earned the title of Dr. T-BOX after many successful years of working with Semaphore customers in technical support and teaching training classes.

Semaphore's T-BOX and Kingfisher [RTU](#) products are ideal for a broad range of monitoring and control applications in the broadcast / telecom, infrastructure management, oil & gas, power, transportation and water / wastewater industries. For more information about Semaphore solutions, visit www.cse-semaphore.com, or contact Semaphore at 1200 Chantry Place, Lake Mary, FL 32746, 407-333-3235.

About Semaphore

Established in 2006, Semaphore was the result of a merger of two CSE Global companies, RTUnet, of Australia, and TechnoTrade SA, of Belgium. For over 20 years, these companies have provided leading solutions for telemetry, automation, and remote monitoring and have an

installed base of more than 70,000 devices. For more information, visit www.cse-semaphore.com.

Semaphore is a wholly owned subsidiary of CSE-Global Limited (CSE), a Singapore-based, industrial integration, manufacturing and distribution group with locations in 20 countries. CSE employs more than 1,000 people worldwide, with over 85% representing its design, engineering, and project management capability and experience. For more information, visit www.cse-global.com.
